We’re Voting YES!

Strike Vote Authorization Underway

We launched our strike authorization vote on Monday, Oct. 31. We are now voting all across the state to ensure we are prepared for all options.

Our intention is to continue to negotiate in good faith for a contract we can all be proud of, but both sides have to act in good faith. When the state’s conduct doesn’t meet this standard—on livable wages and benefits—we must prepare for all options in order to hold them accountable.

California is the 6th largest economy in the world with a projected $11.5 billion surplus this year.

It’s unacceptable that:

- The state is offering us only 2.96% per year with a 3.5% employee contribution to our retiree health care.
- A staggering 39% of our members cannot afford a two-bedroom apartment in the county they live in.
- In most parts of the state, our members cannot afford childcare.
- We are facing alarming gender pay inequality.

Frequently Asked Questions

Can I get disciplined for voting to authorize a strike?

Your participation in this vote is legal, and you cannot be disciplined for participating in a strike authorization vote on your own time. You need to be on your official break or official lunch (or not clocked in) to go off-site and participate in the vote. We will not be voting on state property.

Does this mean our Union is going on strike?

No. We still believe the state can do better, and we will continue to negotiate in good faith. This is a vote to authorize our bargaining team to be prepared with all available options. Our goal is to win a contract we can all be proud of.

While our state leads the nation in laws aimed at reducing pay inequity, the state has a very real gender wage gap.

- Our union is predominately women (66% female, 34% male).
- We are paid 19% less than the average for all rank-and-file state employees.
- The state has made deals with male-dominated bargaining units that include wages 43% higher than our average pay.
