**CORPORATIONS AND THEIR LOBBYISTS  
HAVE RIGGED CALIFORNIA'S ECONOMY:**

Nearly half of California's corporations pay **ZERO** taxes above the minimum – less than most working people!

Some of the world's most profitable corporations **pay so little** and **provide such poor benefits** that their workers need public healthcare and food assistance.

Corporations **will receive \$900 billion** from **HR 1**, paid for by stripping healthcare and food stamps from millions of working families.
